WHO WE ARE

MOASPA is made up of PK-12 human resource administrators and higher education career service professionals.

The mission of MOASPA is to promote and support members in various aspects of human resource operations within PK-12 education.

The work in PK-12 human resources requires specialized knowledge and training. We have an established network, website, regional meetings and annual conferences that provide support to those working in PK-12 human resources and higher education in Missouri and beyond.

WHAT WE DO

- Support ongoing collaboration and networking of our members through a variety of platforms.
- Host a valuable yearly conference, an online discussion space and regularly scheduled local meetings for professional learning and development.
- Support three regional organizations where members from neighboring districts gather to study and debrief current issues and trends related to human resources and career placement.
- Provide access to “member-only” information on our website, which includes useful surveys, conference documents and online discussions.
- Partner with other state organizations for professional learning and networking.
- Provide access to weekly legislative updates via our advocacy organization – the School Administrators Coalition.
